

Step 1: Choose
“Import Projects from
CVS”

Checkout from CVS

Enter Repository Location Information

Define the location and protocol required to connect with an existing CVS repository.

Location

Host: mobilemedia.cvs.sourceforge.net

Repository path: /cvsroot/mobilemedia

Authentication

User: anonymous

Password:

Connection

Connection type: extssh

☒ Use default port

☐ Use port:

☐ Save password

⚠ Saved passwords are stored on your computer in a file that is difficult, but not impossible, for an intruder to read.

[Configure connection preferences...](#)

? < Back Next > Finish Cancel

Step 2: Enter the appropriate connection information:

Host:

mobilemedia.cvs.sourceforge.net

Repository Path:

/cvsroot/mobilemedia

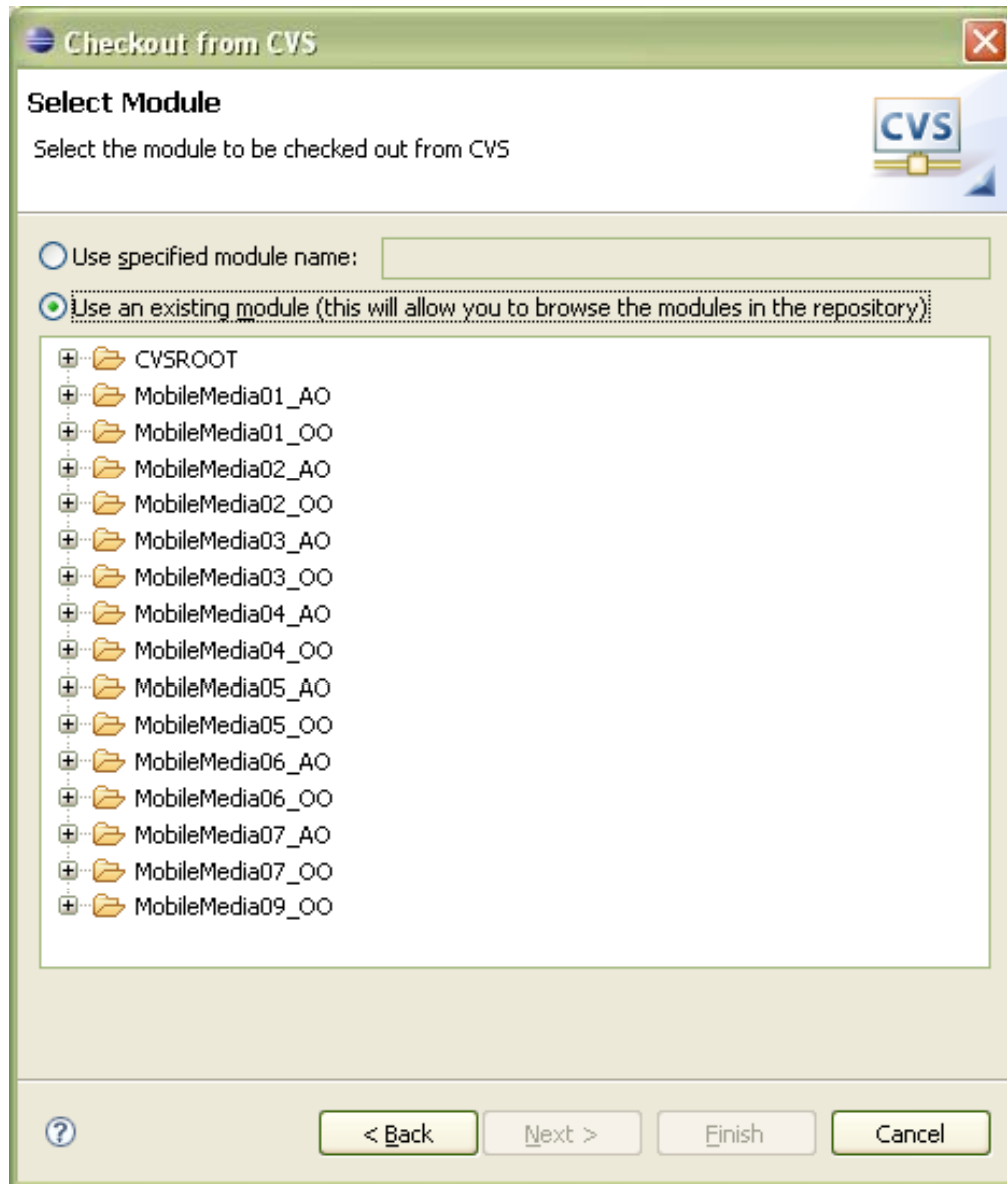

Connection Type: extssh (SF user) or pserver (anonymous)

Username:

'anonymous' for anonymous CVS access or your SF username for developer CVS access.

Password:

There is no password for anonymous CVS access.

Step 3: Choose the MobileMedia version(s) you want to download (checkout).
