

A Bibliography of Aspect-Oriented Software Development

Version 2.0

Robert E. Filman

November 13, 2005

A bibliography of the literature related to Aspect-Oriented Software Development.

My thanks to Mario Südholt, Karl Lieberherr, Sacher Dominik, Guenter Kniesel, Bart de Win, Lee Carver, Curtis Clifton, Mira Mezini, Olaf Conradi, Minhuan Huang and Bruno De Fraine for their contributions.

This is meant to be an evolving document. Please send additions, corrections, comments and disagreements to the author at filman@computer.org. There's more detail in the bibtex version of this file (<http://home.comcast.net/~refilman/text/oif/aosd-bibliography.bib>).
