TaRGeT MIT License

Last Update: 18-Dec-2009

ABSTRACT: TaRGeT is a tool designed to automatically generate test cases from use case documents. This document describes the TaRGeT's license.

KEYWORDS: License, Copyright, Open Source

Contents

1. Introduction

This document is intended to present a license to be used with TaRGeT.

1.1 Abbreviations, Acronyms and Definitions

TaRGeT   Test and Requirements Generation Tool

MIT   Massachusetts Institute of Technology

1.2 References

[1] MIT License (http://www.opensource.org/licenses/mit-license.php)

1.3 Overview

TaRGeT is a working environment that is capable to visualize and navigate through use case documents in order to generate test suites. The inputs and outputs of the tool are stored as a project.

TaRGeT has been developed as a software product line (SPL) that integrates different features of the TaRGeT products.

1.4 Problem Reporting Instructions

o Problems and corrections to this document should be reported to Michelle Silva (mcms@cin.ufpe.br) or Paulo Borba (phmb@cin.ufpe.br).

2. TaRGeT License

This section introduces the terms used in the license, the reasons for choosing the MIT license and the license itself.

2.1 About the MIT License

TaRGeT is an open source software whose code and documentation are covered by the MIT license [1].

Before presenting the license, we define below the terminology used in this document:

- Distributor: the software development team that gives the rights to someone else.

- Receptor: the person or company that receives the rights to copy, modify and distribute the software.

The MIT license was chosen because it assures copyright for receptors to use TaRGeT and allows them to choose what kind of software (proprietary or free) they will develop based on the tool.

The MIT license defines terms and conditions for copying, distributing and modifying TaRGeT. However, its text is not copyrighted. Therefore, it can be modified to meet the needs of any project.

All derivative work made by receptors, such as modifications in the architecture or new features developed based on TaRGeT, must be available to the distributor. The derivative work can be copied and modified only for research purposes, and it will be distributed to other receptors only under the permission of the receptor that modified or developed the new features on the distributed TaRGeT code.

The complete license text is presented in the following section.

2.2 License Text

Copyright (c) <2007-2009> < Software Engineering Laboratory – CIn-UFPE>

Permission is hereby granted, free of charge, to any person obtaining a copy of this software and associated documentation files (the "Software"), to deal in the Software without restriction, including without limitation the

rights to use, copy, modify, merge, publish, distribute, sublicense, and/or sell copies of the Software, and to permit persons to whom the Software is furnished to do so, subject to the following conditions:

- The above copyright notice and this permission notice shall be included in all copies or substantial portions of the Software.

- THE SOFTWARE IS PROVIDED "AS IS", WITHOUT WARRANTY OF ANY KIND, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO THE WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE AND NONINFRINGEMENT. IN NO EVENT SHALL THE AUTHORS OR COPYRIGHT HOLDERS BE LIABLE FOR ANY CLAIM, DAMAGES OR OTHER LIABILITY, WHETHER IN AN ACTION OF CONTRACT, TORT OR OTHERWISE, ARISING FROM, OUT OF OR IN CONNECTION WITH THE SOFTWARE OR THE USE OR OTHER DEALINGS IN THE SOFTWARE.

- The distributor must have access to all modifications and extensions made to the TaRGeT code and its documentation:

  o All software developed based on TaRGeT or using it must be available to the distributor to be copied and modified;

  o All software developed based on TaRGeT or using it can only be used for research purposes;

  o Distributor can make receptor's modifications publicly available only under the receptor's authorization.

- Any modification that receptors make in the TaRGeT's code must follow the rules of the TaRGeT Development Process. This document can be found at

  http://twiki.cin.ufpe.br/twiki/bin/view/CInBTCResearchProject/ToolTarget

- Failure to comply with any such clause of these conditions will result in the loss of rights to copy, modify and distribute TaRGeT.
